

Customised Knowledge Café

In a customized Knowledge Café, I design a Knowledge Café specifically to meet your needs such as this one for [Johnson & Johnson in Ireland in November 2015](#).

I would normally run a customized Knowledge Café in-house for your members of your staff or for your clients, partners, suppliers or members of your business networks during the day or the evening.

Sometimes these events are opened up more widely and I invite members of my Gurteen Knowledge Community. I have 21,000+ members worldwide. This is useful for injecting diversity of opinion into the conversations.

- Duration: 3 hrs.
- Number of participants: Minimum of 12, Maximum 32.
- I can run the Café for larger numbers of people but I need to modify the process in order to do this. This may mean that the value gleaned from the Café may not be quite what it could be. A maximum of 32 people works best.
- The room must have small tables that seat 3 to 5 people per table. The tables should be small and round. Small Square tables are also acceptable. The tables and chairs must be easy to move.
- The Knowledge Café cannot be run in a lecture theatre.

[Contact me](#) if you would like to learn more about customised Knowledge Cafés, how I design and run them and the cost.

This is the energy that emerges in a well designed and run Knowledge Café.
